# FAMILIES THRIVE, ZERO TO FIVE: INCREASING THE CAPACITY OF HEAD START AND EARLY HEAD START PROGRAMS TO PREVENT AND RESPOND TO DOMESTIC VIOLENCE

February 26-28, 2019

2.5 Days | Tampa, Florida

Many families participating in Head Start and Early Head Start programs are affected by domestic violence. Children may experience this violence themselves. Even if they are not physically injured, the exposure to these traumatic events can cause social, emotional and behavioral difficulties, and manifest in physical symptoms, resulting in difficulty learning for some children. Don't miss this opportunity to learn more about prevention and response to domestic violence.

#### Training topics include:

- Impact of violence and trauma on the health and well-being of children, families, and communities
- Strategies that support a trauma-informed workplace, with emphasis on staff well-being
- Best practices to build and strengthen partnerships with parents, domestic violence programs, programs for people who use violence, and other community stakeholders

#### How to Register
