Early Learning Chair;
SVP, Client & Community
Relations Director,
PNC Bank

Erin Smeltzer
Executive Director,
Early Learning Coalition

With a goal to move Florida from the 15th to the 10th largest economy in the world by 2030, it is essential that we ensure the next generation of workers has the necessary skills to support the next generation of jobs in Florida. When does that job training begin?

Developed by the University of Chicago, the [**3Ts- Tune in, Talk More, Take Turns**](#), was designed to help parents and caregivers understand the critical role they play in their children's brain development and to share new ways to act upon this learning. During the webinar, we will dive into the importance of early childhood brain development and the work taking place across Florida to support our youngest residents. Participants will have the opportunity to learn more about this innovative program and participate in a live Q&A with our guest speakers.

Register for this FREE webinar today and be sure to forward this email to your industry colleagues and invite them to join too!
