

HALO Indoor Air Purification Station

Halo lets you and your students breathe a little easier. Even without costly upgrades to your current HVAC system, you can have laboratory-grade HEPA filtration for every room in your facility. That means filtering out the viruses, bacteria, dust, and allergens that get us sick.

Ventilation to reduce risk of indoor transmission and make facilities safer. Installing new heating, ventilation, and air conditioning systems or other improvements.

ZONO Sanitizing and Disinfecting Cabinet

Zono kills 99.9% of bacteria* and 99.99% of viruses+ on the everyday objects in your facility. That means that your teachers and students can have real peace of mind when it comes to being in your center and handling those items every day.

Cleaning Supplies and Services:

"Purchasing necessary supplies or contracting services to clean and disinfect."

DISCLAIMER: The ZONO kills *Staphylococcus Aureus, Methicillin-Resistant Staphylococcus Aureus, Escherichia Coli, Streptococcus Pneumoniae, Streptococcus Pyogenes, Shigella Dystenriae, Salmonella Enteritidis, and Pseudomonas Aeruginosa on non-porous, semi-porous and porous surfaces. +Norovirus on non-porous surfaces.

“Teachers feel more in control of sanitizing their classrooms, parents feel we care to go the extra mile to keep their children safe and we now have more time to work on other things that are required of staff instead of always cleaning and sanitizing.”

-Venita Treadwell

Head Start South City
Tallahassee, FL

“Do it! We love ours! It has really made a difference in the amount of time staff spend cleaning.”

-Dr. Mary DuPuis

Chehalis Tribal Early Learning Center
Washington

As you may already know, ARP funding under the category of Health and Safety is available for Grantees like yourself to purchase Zono and Halo. We can help!
